IGC GROUP | THE MAKE MATTERS |

In today's global market, the jewellery business is more competitive than ever. For this reason, IGC Jewellery Services offers a comprehensive program which will allow you to outsource the manufacturing of your private product with confidence.

Would you like to:

- Reduce manufacturing cost (typically by 25% to 30% dependant on product) ?
- Strengthen cash flow by reducing on-hand inventories ?
- Increase flexibility in jewellery output ?
- Focus more on development, branding, marketing and distribution of jewellery ?
- Fully or partially outsource manufacturing ?
- Feel confident that your intellectual property is safe in the hands of a manufacturer overseas ?

What we have to offer:

- Established relationships with reliable, certified and accredited manufacturing facilities since 2006.
- In-house capabilities to assist from design development all the way to Quality Control.
- On hands, local jewellery professionals.
- Direct communication with IGC jewellery manufacturing team.
- Agreements to ensure your intellectual property is safe.

Every product or brand label has different expectations and needs to be withheld.
Contact us to find out how we can immediately create tangible benefits for your business:
